

Clapham Life

Issue No. 1 | February 2022

A WARM WELCOME

Countryside Partnerships and Metropolitan Thames Valley have partnered to deliver the regeneration of Clapham Park.

We will be building new homes and apartments for existing residents and for new residents.

There will be a community centre, a market square, two parks, commercial and retail space and a district heating system. The homes will have green and solar roofs and residents will benefit from cycle parking, electric vehicle charging points and landscape enhancements.

CGI DEPICTS EXAMPLE OF FUTURE SCHEME

CONSTRUCTION NEWS

In the coming months you will see us starting site preparation works as we get ready to build over 500 new homes. Our contractors will start at Bruce house

and Poynders parade, and will move onto the Threshold Centre and adjacent areas at Clarence Crescent. Here's what you can expect to see over the coming weeks:

- Now – Surveys of the buildings and grounds
- Late February – Tree works & site preparation
- March – Site set up including hoarding to secure the construction areas.
- March – Internal strip out of Poynders Parade.

These works will take a few weeks and enable the construction team to prepare for demolition of the old buildings and construction of new homes.

We aim to provide newsletters to residents to advise of key activities throughout the process. Thank you for your patience and understanding.
